

NEW ORDER Update

Number 17

March 2021 / JdF 131

"We are not so simple, either, to believe that it old ever be possible to bring about a perfect era. But that relieves no one of the obligation to combat recognized errors, to overcome weaknesses, and to strive for the ideal."

– *Mein Kampf*, Volume II, Chapter 2, page 437; s/ 487

NS Publications Site Back Up

As many readers you will already know, the NS Publications website was down for about a month beginning in early February. After years of smooth service, we began to experience problems with our server this Winter. Eventually we decided to get a new server. The site went back up on March 7, at its traditional url: <http://nspublications.com>.

We do not anticipate any problems with the site in the foreseeable future. However, our enemies will continue to attack us and may succeed at some point in bringing the site down, even if only temporarily. If the site disappears, you can always order from our paper catalog. Any comrade who does not have a catalog may obtain one by contacting nspublications88@gmail.com or by writing to

Government Using “NS Satanists” In an Attempt to Discredit the Movement

Back in 2018, we were contacted by persons claiming to be “Satanist” or “left-hand path” National Socialists from Europe. They offered to help the NEW ORDER in unspecified ways if we would link to their websites and give our approval to their ideas. As a gesture of faith on their part, they translated some articles from our old Word Press blog into various European language. One organization, in particular, to which they referred was the “Order of the Nine Angles” (O9A).

Chief of Staff Kerr thanked them for the translations but explained to them politely that the NEW ORDER was not a “Satanic” movement, and that we did not endorse Satanic or “left-hand path” ideas, and that we did not see any space for collaboration between the Hitler movement and Satanism. That ended our exchange of communications with them.

At the time, we believed that the “Nazi Satanists” contacting us were merely an example of a psychological phenomenon with which we are all familiar.

The Old Order portrays National Socialism as an “extremist” or “fringe” movement. From our standpoint, however, National Socialist belief is a logical and mainstream train of thought within the context of Western, Aryan intellectual development. It is Democracy, Marxism, Freudianism, Feminism and the other dominant modern ideologies which are extreme and fringe. *People who deny the reality of Nature’s laws are the weirdos, not us!*

Nevertheless, because we are portrayed as being a marginal, extremist movement, we attract people who have abnormal personalities and who find fringe theories appealing in themselves, regardless of their merit or content. Thus, there are people to want to affiliate with National Socialism who believe in the Flat Earth Theory, as well as those who hold that the Apollo Moon-landing, dinosaur fossils and gravity (yes, *gravity!*) are hoaxes perpetrated by the Jews on a naïve Aryan population.

I had assumed that the Satanists who contacted us fell into this same category. And perhaps some did – but now it turns out that there was more to it than that. Documents leaked to the media in early January reveal that the National Counterterrorism Center (NCTC) and the FBI in the US, and the Research, Information and Communications Unit (RICU) in the UK, have deliberately

infiltrated Satanist organizations with the goal of linking them to National Socialism. Their reasoning is that combining Satanism with National Socialism will (1) cause internal disruption within the Movement; and (2) make NS less appealing to ordinary Whites who are looking for an alternative to multicultural democracy. One Satanic group targeted by the Feds specifically named in the news reports was the Order of Nine Angles – which is the very group that had contacted us back in 2018.

This attempt to infiltrate the NEW ORDER and the World Union of National Socialists and corrupt our worldview failed. But that our enemies would go to the effort of trying to disrupt and weaken us is an indication that they are concerned about the potential our Movement has for the future. We may not be at the top of their list but they clearly are worried about us

Virginia Distributions Continue

Since *New Order Update* 16 was issued in the first week of November, Virginia activists have distributed leaflets and stickers on three occasions. The distributions have taken place in small communities that are nearly 100-percent White.

- November 10 – Mineral
- January 8 – Lovingson and Scottsville
- January 17 – Amelia Courthouse

Substantial local publicity as received as a result of these distributions.
